As a recent graduate with a degree in a Front-End Development, I am eager to launch my career in this exciting field. While I may not have any commercial experience yet, I have gained a strong foundation in HTML, CSS, and JavaScript, as well as experience working with React, Node.js and TypeScript.

In addition to my technical skills, I am passionate about designing and bringing websites to life. I have honed my skills through countless hours of building responsive websites and developing interactive web applications.

I am highly motivated to learn and grow as a Front-End Developer, and driven to make meaningful contributions to a team. With a strong work ethic and a commitment to excellence, I am confident that I would be a valuable asset to any company.
